Hunch/problem/trigger (What is a "valued outcome" in my classroom that I want to work on?)

Evidence (How do I know? Data may be quantitative or qualitative)

What do I already know that could be useful?

What new knowledge and/or capability do I need?

Where can I go or who can I ask to help?

What are some possible strategies I could use?

How will I know it's made a difference? How will I measure any change?
