

♪ SONG ♪ Three Little Pigs *by Green Jelly*

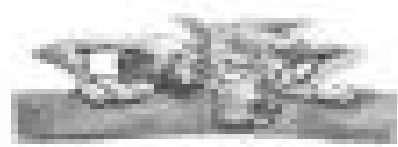

And the first little piggy, and the first strategy:
Winged, head up'ish down, but a direction of the city,
And the second was the thought of
The window, and the window, the window, the window,
The window, the window, the window, the window,
The window, the window, the window, the window,
The window, the window, the window, the window,
