

Color the words. The word next to the correct box on the picture.

Condensation

Evaporation

Precipitation

The water droplets become heavy.

As the water vapor rises, it cools down.

The sun heats the earth's water.

The heavy droplets fall to the earth as rain, snow, sleet, or hail.

The warmed water turns into vapor and rises in the air.

In the clouds the tiny water droplets join together.

The tiny water droplets form clouds.

The cooled water vapor forms tiny droplets of water.

Directions: You will need a pencil & colored pencils. After you color the picture of the Water Cycle, cut out the sentence strips. Then glue them onto the picture in the right order.
