

Name _____ Date _____

Spring Awakens the Earth

Reading Comprehension

Read the passage below and answer the questions that follow!

As winter fades, spring begins its gentle arrival. The days grow warmer, and nature awakens with bursts of color. Flowers bloom, trees bud, and animals emerge from their winter shelters. Birds chirp happily, building nests in preparation for new life. Rain showers nourish the soil, encouraging plants to grow tall and strong. Spring is a time of renewal, where the earth comes alive in a dazzling display of sights and sounds.
