My mom promised me to get a sweet treat after I took a trip to the dentist. I had to make a deal though. If I was good at the dentist she would either take me to get ice cream or a popsicle. I was sure to be on my best behavior for Dr. Jack. I got my teeth cleaned and I was super nice to everyone. We left right after and I decided that I wanted to get ice cream. We went to my favorite ice cream place, Bruster's! Mom let me get the double chocolate fudge ice cream cone. It was so delicious I ate the whole thing. My mom told me that I could only have one every once in a while because I might get cavities.

Answer each question.

1. What did the mom say the child could do after the dentist?

2. Why can the child only get ice cream every once in a while?

3. Where did the child have to go?

4. What kind of ice cream did the child get?
