Women in Science

Read the short passage and answer the questions.

Women have also helped the world through science.
They worked hard to discover new things.

One famous scientist was Marie Curie.
She made discoveries that helped doctors
treat sick people.

Women's History Month shows that girls can be
great scientists too.

Questions:

1. What field did women help in?

2. Who was the scientist mentioned?

3. How did Marie Curie help people?

4. What does this passage show about girls?
