## THE BIG EGG

Jean lived on a farm and had a job to do. He had to wake up early every day to feed the chickens and get their eggs.

One morning Jean went outside to do his job. He reached down and got three eggs from the first chicken. He reached down and got two eggs from the second chicken. He reached down and felt a huge egg under the third chicken.

He could not believe it. The egg felt strange. It was much bigger and heavier than the others. He looked at it with surprise.

Jean smiled and said, "So that's where my baseball went!"
