The Helpful Rabbit

Ben the rabbit lives in a small forest.
Every morning, he wakes up early and hops outside his cozy home.
One day, Ben sees his friend Mia the squirrel trying to carry a big pile of nuts.
The nuts are too heavy, and Mia looks tired.

Ben quickly hops over and says, "I can help you!" Together, they carry the nuts to Mia's tree. After that, Ben notices a bird with a broken nest.
The bird looks sad because her eggs are on the ground.

Ben carefully helps the bird rebuild her nest using sticks and leaves.
The bird thanks him with a happy chirp. At the end of the day,
Ben goes home feeling very proud. He smiles because he helped his friends.

Questions:

1. Where does Ben live?

2. Who is Mia?

3. Why did Mia need help?

4. What problem did the bird have?

5. How did Ben help the bird?
