READING FLUENCY

Record the words per minute read in the chart at the bottom.

This weekend, I went apple picking with my family. My favorite fall

activity is apple picking. It is the perfect time to get apples. The apple

trees blossom in the spring. It is time to pick the apples off the trees

in the fall.

We got to the farm, and the farmer gave me a basket. My family

and I walked through the rows of apple trees.

I learned that apple trees come from Asia. There are many different

types of apples. You can eat the fresh fruit. You can also use the fruit for

cooking, baking, or making juice.
