# RAINY DAY SOCCER

It rained all night on Friday, and the weather stayed cloudy the next morning. Because of the heavy rain, the soccer field was muddy on Saturday morning.

The coach walked onto the field and saw puddles of water everywhere. He decided to cancel practice because it was not safe to play. The players stayed home and practiced juggling the ball in their yards instead.

## QUESTIONS:

1. What caused the soccer field to become muddy?

---

2. Why did the coach cancel practice?

---

3. What happened after practice was canceled?

---

4. What is the effect of the heavy rain?

---

5. Where did the players practice instead?

---
