SEA TURTLES

Sea turtles are large reptiles that live in the ocean.

They have hard shells to protect their bodies.

Sea turtles use their flippers to swim through the water.

Most sea turtles eat plants, jellyfish, or small sea animals.

Female sea turtles lay their eggs on sandy beaches

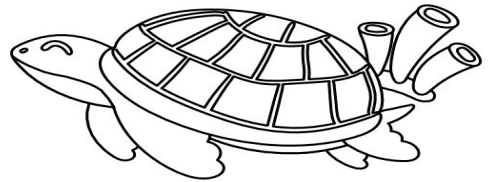

When the baby turtles hatch, they crawl to the ocean.

Sea turtles can live for many years.

Some sea turtles can live to be over 50 years old.
