

TAX PRACTICE

Name: _____

Date: _____

Read and answer the questions to the following problems.

Ema's dad is helping to get her first car. It costs \$22,500 not including the sales tax. If the sales tax is 6%, what is the total cost of the car?

Billy wants a new gaming system and is trying to find the best deal. Store #1 has the system for \$550 plus 5% sales tax, while Store #2 has it for \$510 plus 8% sales tax. Which is the better deal? Explain.

When given a bill with a subtotal of \$62.00 and tax is 7.35%, find the tax amount and total below. You can round the tax amount to the nearest cent (hundredth place).

When given a bill with a subtotal of \$109.00 and tax is 7.1%, find the tax amount and total below. You can round the tax amount to the nearest cent (hundredth place).
