Identifying Star From American Flag

1. The star on the American flag has 5 points.
How many angles does one star have in total if each point creates 2 angles?

2. A teacher draws 4 stars for a Flag Day poster.
If each star has 5 equal sides, how many sides are there altogether?

3. One star has a perimeter of 25 cm.
If all 5 sides are equal, how long is each side?

4. A large star decoration is divided into 10 equal triangles.
If one triangle has an area of 6 cm^2 , what is the total area of the star?

5. A student measures one angle of a star point as 36° .
What is the total of the 5 star point angles?
