HALLOWEEN FRACTION WORD PROBLEMS

GRADE 4

Directions:

Read each Halloween story carefully. Solve the fraction problem and write your answer in the space provided.

1. PUMPKIN PIE PARTY

Emma baked 8 pumpkin pies for a Halloween party. The guests ate $\frac{3}{4}$ of the pies.

How many pumpkin pies did they eat?

2. CANDY COLLECTION

Liam collected 24 pieces of candy while trick-or-treating. He gave $\frac{1}{3}$ of his candy to his little sister.

How many pieces of candy did Liam give away?

3. HAUNTED TRAIL

A haunted trail is 12 miles long. Ava has already walked $\frac{1}{2}$ of the trail.

How many miles has Ava walked?

4. WITCH'S POTION

A witch needs 16 cups of magical juice. She has already poured $\frac{3}{4}$ of the amount.

How many cups has she poured?

5. SPIDER COOKIES

Noah baked 20 spider cookies. His friends ate $\frac{2}{5}$ of them.

How many cookies did they eat?
