THE ACORN HUNT

Every fall, Ben and his sister Lily visit the forest with their grandfather. They bring small baskets and look for acorns under tall oak trees. Some acorns are big, while others are tiny. Ben finds smooth brown acorns, and Lily collects the ones with little caps. Their grandfather teaches them how squirrels gather acorns to prepare for winter.

After filling their baskets, they sit on a wooden bench and enjoy warm cider with homemade cookies. Before leaving, Ben and Lily scatter a few acorns on the ground for the forest animals. They smile as they watch a squirrel quickly carry one away.

Questions:

1. Who do Ben and Lily visit the forest with?

2. What do Ben and Lily collect?

3. What does their grandfather teach them?

4. What do they enjoy after filling their baskets?

5. Why do Ben and Lily leave some acorns on the ground?
