THE CANDY MYSTERY

Every Halloween, Mia filled her candy bag with sweet treats. This year, she noticed one piece of candy disappeared every time she looked away.

She wondered who was taking it.

Soon she spotted a tiny squirrel carrying the candy to its nest. Mia laughed and placed a few extra candies on the ground. The squirrel happily carried them away while Mia enjoyed the rest of her treats.

Questions:

1. What disappeared from Mia's bag?

2. What was taking the candy?

3. How did Mia feel when she found out?

4. What did Mia put on the ground?

5. What happened at the end?
