SPOOKTACULAR WORD PROBLEMS

DIVISION WORKSHEET FOR 4TH GRADE

1. Candy Count: Count Dracula collected 532 pieces of candy. He wants to divide them equally into 4 monster loot bags. How many pieces of candy go into each bag?

2. Pumpkin Harvest: A farmer harvested 875 pumpkins and packed them into crates that hold 7 pumpkins each. How many crates did he fill completely?

3. Potion Brewing: A witch brewed 493 ounces of glowing potion. She poured it into 5-ounce potion bottles. How many full bottles can she fill, and how many ounces are left over?

4. Haunted House Ticket Sales: The haunted house made 1,428 dollars from ticket sales in one night. If each ticket cost 6 dollars, how many people visited the haunted house?
