ELECTION DAY

Election Day is a special day when people vote for leaders.

Before Election Day, candidates share their ideas with the community.

People may listen to speeches, read about the candidates, or watch debates.

On Election Day, voters go to a polling place to cast their votes.

They choose the candidate they think will do a good job.

Each person's vote is private.

After people vote, the votes are counted.

The candidate who receives the most votes may win the election.

Voting is one way people can take part in their government and make their voices heard.
