Mia and the Playful Zoo Animals

Every morning, Mia visits the school zoo corner before class begins. She looks at the animals and makes sure they are safe and comfortable. One day, Mia noticed a group of baby rabbits hopping around their enclosure. She was excited to tell her teacher.

Mia's teacher told the class that the animals were active and healthy. The students quietly observed them and made sure not to disturb them. Mia was proud because she had helped take care of the zoo animals. She learned that animals need food, water, and a clean place to live.

Questions:

1. When does Mia visit the zoo corner?

2. What did Mia notice in the enclosure?

3. Who did Mia tell about the animals?

4. What did the students do when they saw the animals?

5. What do animals need to stay healthy?
